WELCOME TO THIS MONTH'S NEWSLETTER:

Hello again everyone.... Here we are in March, expecting a great spring, masks are almost a thing of the past, not gathering together in "larger" groups, etc... all in the past... Now we must start looking to the future of this Guild... I visited the Kamloops Arts Council office and asked, "What is the outlook of the **Art In The Park** for this summer?" Their answer was, "We're still in talks with the City, and have not had anything concrete decided yet, but plan as if it was a go, and if it's canceled, we'll have to adjust accordingly." So as of today, this is where it stands... Stay tuned; if I hear anything different, I'll let everyone know right away. (We are carrying-over the AITP fees from 2020, and I confirmed out spot on the east side of the washrooms...)

So, now, on with the newsletter.

Steve

Health & Welfare;

Dave reported that Denis is on the heal after his surgery in Kelowna... Sounds a lot better too.

Tools & Wood;

Wade B. got himself a 220volt, 2 HP, Laguna 224 wood lathe. Having trouble with the movement of the tail stock on the ways... Tried everything to loosen up, but so far, no luck.

Warren J. - got a load of dimension hard wood from a traveling wood paddler, and he got a number of pieces and paid \$100.00. Explained they were dunnage from Japanese-sourced pipe...

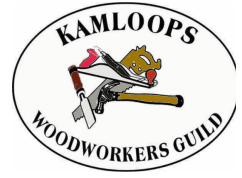

Also picked up a bunch of thin "alder" wood from 666, W. Athabasca Rd, on the KIB Lands. Free for the taking... It's outside the business' gate by the road.

KAMLOOPS WOODWORKERS GUILD

MONTHLY NEWSLETTER

www.kwwg.net

There are some boxes of random wood cut-outs, animals, angels, etc.. free for the taking... If there are any left after the meeting, they're on their way to Penny Pinchers.

Insurance:

Les reported that our Liability/Director's insurance is paid up to Jan.2023...

Demo Information Needed;

Les needs to know what folks want to see for demos in future meetings...

There is a list on the entrance table requesting suggestions for demos, and a sign- up sheet for folks who are willing to give demos to the group..

Warren's S-I-L, part owner of the Malahat Skyway, has a PPT show that I could ask him to present to us on one of his trips up here to visit... If his visit covers a meeting date, I think he may be persuaded to give it to us... He travels all over N-America giving this show.. < <https://malahatskywalk.com/explore/the-skywalk/> >

TRU Bursary Awarded;

Carl O. informed us the he was notified from TRU that they have awarded the KWWG Bursary to Mathew Levine, a student there.

Web Page, Social Pages need update;

Dave G. told the group that our web page and F/B pages need updating as they are showing their age.. Nick S. said he has a friend that has done web pages, and he'll ask him if he's interested in the job...

Wood Needs To Be Milled;

Dave G. has a few pieces of the “Hospital Trees” wood that is still too thick and heavy to do anything useful with... Does anyone have any suggestions where I can get it milled to smaller sizes?

Someone suggested ValleyView Industries.. They have a \$25.00 base price, then it increases with the number of cuts.

Dave also explained that he had some metal pieces that need cutting, too... anyone?

Art In The Park for 2022;

Read statements in the welcome at top of Newsletter...

Movie Location:

Terry S. was approached by a movie production company and asked if they could look at his shop for a possible “Santa's Workshop” in a movie production going on in Kamloops. They visited his shop and he hasn't heard any more about it.

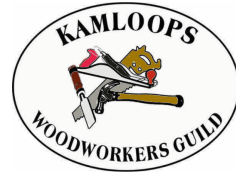

Dave A's. Thanks;

Dave A. expressed his appreciation to Dave. G. for getting the Guild up and operating again.. Lots of work with the City folks.

SHOW & TELL:

Les E. - variety of bottle stoppers he turned. And two bowls from wood Donna R. gave him.

Nick S. - I-pad holder... Swiveled to every angle so wife can use I-pad. Bowl, turned from two 2x4s glued together to practice bowl turning...

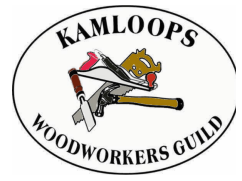

* **Terry S.** - Toy Grader made from used woods, wanted to show to Owen T.

www.kwwg.net

Don I. - Variety of turned items, Black Walnut pineal for turned ball like vessel, and two beautiful bowls with amazing touches... Showed photos of a rocking chair that he recovered after being in flood in Nicola Valley Floods.

* **Donna R.** – Built a wooden tortilla press that works great...

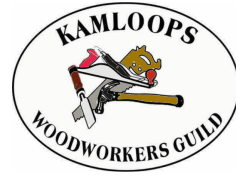

* **Jerry G.** – Serving tray with a center panel of poured epoxy that gave him a bit of trouble because of “not mixing well enough” to set properly.

www.kwwg.net

* **Dave G.** – Leonardo's Trebuchet that he assembled and demonstrated for the group. Gave a quick talk on where and how he came to own it and then assemble.

* **Dave A.** – Showed a turned Christmas Tree that his daughter asked him to make for her...

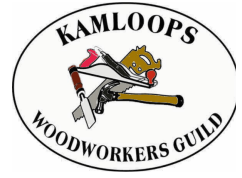

* **Wade B.** – Showed us a turner's apron that his wife made for him in secret. All the trim and sleeves are Boston Bruins logo materials...

Demo; Dave G. - Butt Hinges:

Dave gave a very informative lesson on the qualities and prices and dressing of butt hinges bought in retail outlets.

Very well presented and very informative.
