

Winter Warmer

Species Dimensions

Print Plans & Dimensions (below)
Model Not Yet Available.

Black-capped
Chickadee

Mountain Chickadee

Boreal Chickadee

Chestnut-backed
Chickadee

Chickadees and maybe other species that remain in winter climates will gather together and cuddle in these warmers. The Winter Warmer is constructed with Red Cedar. Wood stock is rough-cut on both sides so birds can grip interior and exterior surfaces.

It has a 6" by 6" floor, 9" inside ceiling, 1 3/4" diameter entrance hole located at floor level.

Hinged roof provides easy access for monitoring and cleaning. Shutter hooks secure roof in closed position.

Assembled with corrosion resistant screws. Pilot holes in both primary and secondary work pieces makes for easy assembly with screwdriver in minutes.

Mount in the sun on a tree, post, or wall between chest level or just out of reach. Check regularly for cleaning.
