Hi all: Here it is, February almost over, and we're well on our way into 2024. This winter doesn't seem like any winter we've ever had before, and they're warning of a serious drought coming up in the summer. Stay tuned. There is a work bee, at Les' place on March 03rd, starting around 9:30am to whenever we finish; usually around 3:00pm. There is also opportunities coming up for Demo Days, and we need to prepare for that. More to come later in the year. Now on with the newsletter...

- Les** went through the box of AITP sales items and there was a good amount of items. The cutting board that was caught in the rain deluge still has a bit of a twist to it, other than that all looks good. Some of the pens need new refills. There are some sandwich boards and an easel to hold "sponsors board", and there is a homemade thickness planer if anyone wants it.

5) **WORK BEE AT LES' PLACE:**

Start time is roughly 9:30am to whenever we decide to finish – usually 3:00pm ish...
